

# North Phoenix Preparatory Academy Supply List

## Organizational Systems

*In partnership with our families and with the goal of developing independent learners, North Phoenix Prep wants to help our students become more reflective about their organizational choices. Families are encouraged to review the three recommendations below and choose a system that will work best in the coming year.*

### **Six small/medium binders**

A separate binder and/or notebook for each course. If using a spiral bound notebook, the paper will need to be perforated so that written work can be submitted with clean edges. Some teachers will require both a binder and a notebook (noted below in grade-level specific sections). This system is the least cumbersome throughout the school day-Using a color scheme can help make this a successful system – e.g., all biology materials (notebooks, binder) are RED, all geometry materials are BLUE, and so on.

### **Pocket folder for homework**

Regardless of which binder system is chosen, a single pocket folder is a good method for keeping track of the evening's homework. The folder remains with the student throughout the day, and comes home every night. One side of the folder is designated for work to be completed and the other side for completed work that needs to be submitted.

### **NPX Student Planner**

On the first day of school, students will receive an NPX student planner (purchased through NPX contribution in July/August). The planner is hole-punched and will fit in any standard binder. The planner is essential for recording daily homework assignments, tutoring appointments, and extra-curricular commitments. The cost of this planner is part of the NPX contribution – MS or HS contribution. Additional planners (to replace lost) are \$10 each.
